

AMERICORPS MEMBERS SERVING HERE

With more than 250,000 Americans serving nationwide, AmeriCorps brings people together to tackle challenges through national service and volunteering.

The Utah Higher Education AmeriCorps Network is the only program in Utah where students can find non-competitive educational funding designed to be earned through direct service related to their course of study. Most of our members earn their Education Award funding while they complete the practicum, clinical, or internship hours required by their degree.
